

A World for Children, non-profit child placing agency for foster children, has an exciting career opportunity for a Clinical or Treatment Director position. This position will provide clinical services and training to our Brownwood and Wichita Falls Areas. This candidate will be housed out of Wichita Falls. Qualifying applicants will have the following skills:

- The ability to establish positive, working relationships with co-workers and service providers
  - Effective communication with team members, foster parents, and children in care
  - Excellent planning and organizational skills
  - The ability to interpret a broad range of clinical assessment and apply interpretation to service planning effectively
  - The ability to develop a working understanding of agency policy as a resource to staff and foster parents
  - The ability to identify safety and treatment needs and apply supports and services accordingly
  - A firm understanding of trauma informed care
  - Independently motivated to develop skills based on latest research related to trauma-informed caregiving
  - The ability to provide training in formal and informal settings
  - Outstanding documentation skills
  - Proficient in computer skills including media tools for training
  - Clinical crisis-response skills
- 
- Applicants should meet the following education and experience requirements:
  - Master degree in a human services field
  - At least three years' experience providing treatment services to children, preferably in a foster care setting
  - Preferred but not required: Licensed as a social worker, clinical social worker, professional counselor, or a licensed marriage and family therapist.
