# Texas Child-Centered Care System T3C

### Background

1988

Level System Born (5,000-6,000 kids in care)

2011

Foster Care Redesign

2017

Community Based Care

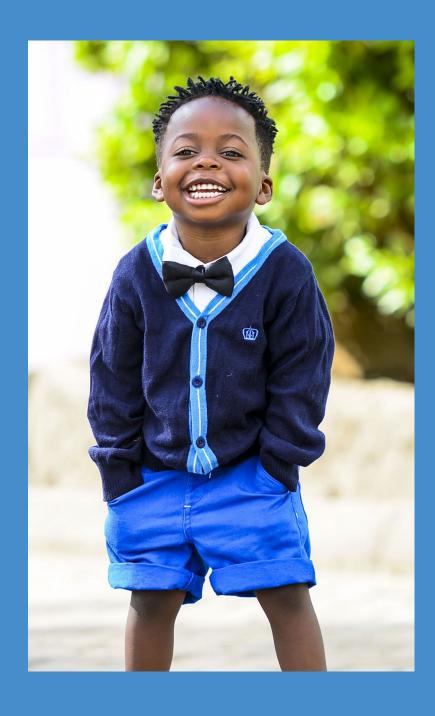

2004

Levels change from Levels of Care to Service Levels we have today 2019

Requirement to evaluate the existing Rate Care Methodology 2021

Requirement to develop an alternative reimbursement methodology proposal for the 88th Legislature for foster care and CBC rates, which became known as Rate Care Modernization

- T3C is not about rebuilding the legacy system but designing a **new** foster care continuum and rate methodology that supports the success of CBC as it rolls out across the state. It goes hand in hand.
- Data Analysis, Research, and extensive stakeholder input contributed to the design of the T3C.
- Children's placements are defined by the services they need and the settings they will live in. DFPS/SSCC purchases the service package in the setting. Payment doesn't change. As long as a child needs that service package in that setting, payment remains the same.

## Key Components

- Universal Screening and Placement Process
- Clearly Defined Service Packages
- Rates that align with the cost of care for services
- 4 Continuous Quality Assurance and Improvement
- 5 Provider Grants to prepare
- 6 Implementation Timeline

#### **CPS CASEWORKER**

- Has information about caregivers & progress towards reunification
- Depending on stage of service, has regular meetings with child
- Completed Application for Placement
- Has discussed placement choices with family

#### CANS ASSESSOR

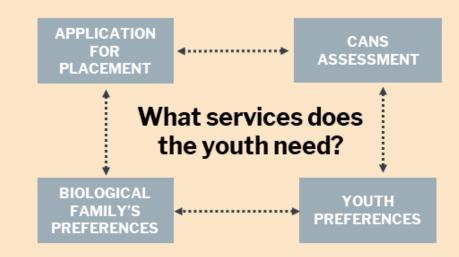

- CANS Assessor uses all information available through Application for Placement, affidavit of removal, any other prior assessments, medical and educational records as available
- · Interviews birth family

#### PLACEMENT WORKER

Placement Worker (PW)
 assigned to the case and
 reviews packet of information
 including Application for
 Placement and any other
 documents provided including
 assessments.

#### PLACEMENT SUPERVISOR

 Supervises placement workers, coordinators

#### **IDEAL PLACEMENT IDENTIFIED**

- Placement Worker identifies placements that have or can use external providers to ensure that youth receive all indicated services
- · Proximity to home community is prioritized
- Expertise, knowledge of services in communities from all workers is utilized to help find appropriate placements
- Provider(s) are contacted to assess capacity and fit for placement

#### RTC PLACEMENT COORDINATOR

 RTPCs search for match based upon child's needs (the youth's preference, ad litem/CASA input, family connection, education, therapeutic/medical needs etc.) by contacting specific residential treatment centers that are listed to be a match

#### YOUTH FOR TOMORROW

 If RTC Tier 2 placement is needed, an external review/ assessment must verify need for placement

## Foster Family Service Packages

#### Home-based/Community Services

Base Package (Child assigned one based package after assessment completed):

- 1. Basic Foster Family Care
- 2. Short-term Assessment/Stabilization Services
- 3. Services for Children & Youth with Complex Medical Needs of Who Have Been Deemed Medically Fragile
- 4. Treatment Foster Family Care Services
- 5. Intellectual Developmental Disability (IDD)/Autism Support Services
- 6. Sexual Aggression/Sex Offender Support Services
- 7. Mental & Behavioral Health Support Services
- 8. Human Trafficking Services
- 9. Substance Abuse Services

One or more of the following service add-ons:

- A. Transition Support Services for Youth & Young Adults 14 years and Older
- B. Support Services for Youth and Young Adults who are Pregnant or Parenting
- C. Kinship Add On for CPA Support Services

There will be one daily rate associated with the child's base package, and then if applicable up to three of the add-ons attached to the daily rate.

## Required Elements for Basic Care Foster Services (not all inclusive)

Element

**Respite Care** 

Therapy

Normalcy

**Treatment Team Meetings** 

**Technology** 

Caseload Ration and Staffing Requirements

Professional Development

Treatment Model and Trainings

Cross System Coordination

## General Residential Operations Service Packages

## Tier I: Facility-based Treatment Services (with exception of Basic Child-Care Operations & Emergency Stabilization/Assessment Care)

- 1. Basic Child-Care Operation
- 2. Emergency Stabilization/Assessment Care
- 3. Services to support Children, Youth, and Young Adults with Complex Medical Needs to Support Community Transition
- 4. Services for Children, Youth, and Young Adults with Intellectual Developmental Disabilities (IDD)/Autism to Support Community Transition
- 5. Sexual Aggression and Sex Offender Treatment Services to Support Community Transition
- 6. Mental and Behavioral Health Treatment Services to Support Community Transition
- 7. Human Trafficking Services to Support Community Transition
- 8. Services to Support Community Transition for Youth and Young Adults who are Pregnant or Parenting
- 9. Substance Use Services to Support Community Transition

## General Residential Operations

#### Tier II: Facility-based Stabilization Services

These services include all of the federally established requirements affiliated with a Qualified Residential Treatment Program (QRTP) model inherent in the Family First Prevention Services Act.

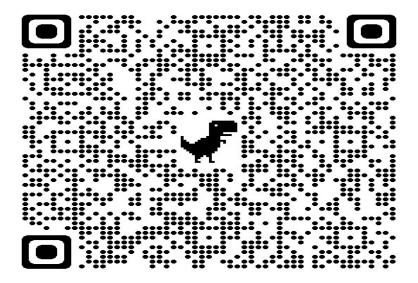

Stabilization Service Programs in Tier II, will treat children, youth, and young adults with one or more of the following sub-acute needs:

- > Aggression or defiance;
- Substance use disorders;
- > Human trafficking victimization;
- > Sexual aggression or who have been adjudicated a sexual offender;
- Complex medical needs; and
- > Complex mental health needs to include suicidal and other self-harming behaviors.

## Blueprints

Look to <u>Foster Care Rate Modernization Report 2\_2023</u> for more detailed information regarding each service package.

DFPS has indicated they will soon publish "blueprints" for each service package to support provider planning.

## FOSTER CARE PACKAGES Daily Rates

Complex Medical Needs	\$623.53
Complex Mental Health	\$583.33
Substance Use Disorders	\$633.02
Human Trafficking	\$642.02

### Continuous Quality Assurance & Improvement

T3C envisions a CQAI process at both the system level and the individual provider level.

#### **System**

External to DFPS, this team will use data to ensure meaningful evaluation and continuous modifications that support improvement.

#### **Individual Providers**

Must have technology that supports a CQAI process. TACFS will begin a webinar series on program evaluation and CQIA in January 2024.

## Provider Grants to prepare to serve

- Grants have been funded to account for training, IT, contract, cost reporting, staffing and other items associated with the changes that will need to be made.
- Each SSCC will receive a grant in the amount of \$350,000.
- Additionally, there is \$6M appropriation for each year of biennium for provider grants. No announcement has been made yet regarding the application process or requirements. However, we anticipate more news to come soon.

#### Timeline

**June 2023 – December 2024** 

Building Infrastructure and Provider Readiness

September 2027

Full Implementation

**Refinement of System** 

January 2025 – August 2027

Transition to new Service Packages and Contracts

## Strategic Planning

Based on what you have heard so far.....

What do you think are the some of the next steps your organization should take as you begin the T3C journey?

## Questions?

DFPS has a mailbox for inquiries: DFPSRateModernization@dfps.texas.gov
